

Empower Yourself.

Questions to ask when choosing hospice care for your loved one:

- 1 How soon will a nurse make the first visit?
- 2 How many times will a staff member visit?
- 3 Will my loved one's primary doctor be involved?
- 4 How quickly will a nurse arrive after being called?
- 5 If my loved one needs care on nights and weekends what happens?
- 6 Do you pay for medications?
- 7 Do you provide support for the family?

How will you Cherish your loved one?

Schedule a consult to see how Cherish Hospice can be there for you and your family.

CHERISH

HOSPICE

To Cherish Life.

Every moment a patient has left should be cherished and every day lived with quality.

At Cherish Hospice we believe that every patient deserves to receive compassionate care no matter the age, stage or condition.

With quality of life at the forefront, Cherish will provide pain management, emotional guidance and spiritual support against a backdrop of sensitivity, compassion and professionalism.

We want your loved one to spend their final days ensconced in the lap of comfort. And no matter where that is, Cherish will be there with them.

Why Hospice?

Hospice care is a philosophy of treatment focused on caring, not curing. The goal is to help patients get the best quality of life in the time remaining. Hospice staff care for any type of physical and emotional symptoms that cause pain, discomfort and distress. The care is specifically designed around the patient's needs and wishes.

Hospice takes care of not just the patient, but their family as well. The compassionate staff of Cherish Hospice is there every step of the way, providing the patient's loved ones with support through the emotional, spiritual, and medical challenges that arise.

Hospice care is frequently provided in the patient's home, but can be received in hospitals, nursing homes and other long term care facilities.

Importantly, patients in hospice can stop hospice service at any given time. In no way will the hospice team hasten or postpone the death of a patient. Instead, they will treat the symptoms of the illness and will make the end of life process as peaceful and comfortable as possible.

Daily Living Assistance

You can't give life more time, but you can give the time more life.

When Decisions Seem Daunting.

Here are the answers to questions you may be facing.

How do I pay for Hospice Care?

Most hospice patients do not have any out of pocket expenses. Oftentimes, hospice care is covered by Medicare and other insurance plans. We will walk you through the process to get the care approved.

Is Hospice a place?

No. Hospice is a level and form of care that is provided in the place the patient calls home. Options include nursing homes, hospitals, or in the patient's home.

Is there a limit to how long a patient can be in hospice care?

Once an individual becomes a patient with Cherish, he or she continues to receive services for as long as necessary.

Is Hospice Care only for bedridden patients?

No. Although many patients are bedridden, Cherish serves terminally ill patients with all types of progressive and chronic diseases.

Is Hospice just for the patient?

Cherish Hospice is focused on providing comfort, dignity and emotional support to the patients and their loved ones. Besides for maximizing quality of life for the patient we help the family through the tough decisions and guide them through the bereavement process.
